ANNUAL REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of New Hampton:

It is a privilege and a pleasant duty to submit my third annual report to the School Board and Citizens of New Hampton for their careful consideration. Again New Hampton has, as in the past, taken within the year many progressive steps toward improving its schools.

Teachers

Your superintendent and the school board realize that in order to induce experienced teachers to remain in rural sections we must have throughout the state a supply of teachers equal to the demand. We have not yet reached that point. It is carefully estimated by the National Education Association that there is a shortage and below standard in this country, 92,000 teachers. In New Hampshire this same organization estimated that there were 282 vacancies and teachers below par. Thus it has been impossible for rural towns to retain teachers any great length of time. Unquestionably one of the great problems before the people of this country is securing and holding well trained teachers in these rural towns.

The ideal which your superintendent hopes to see realized in this country is at least a two-year secondary training for all teachers entering the profession. From the table below one can see the situation in New Hampshire.

Those teaching over 20 years	11 per cent.
Those teaching from 15 to 20 years	6 per cent.
Those teaching from 10 to 15 years	12 per cent.
Those teaching from 5 to 10 years	18 per cent.

Those teaching from 1 to 5 years	26 per cent.
Those teaching one year or less	5 per cent.
Those inexperienced	12 per cent.

In other words over 50 per cent. of our teachers in New Hampshire are with less than five years experience. In New Hampton our teachers have the following qualifications:

Two teachers are graduates of Plymouth Normal School with five years of teaching experience; one, a Plymouth Normal School graduate with one and a half years of teaching experience; two, with Summer School training with one and a half years experience, and one, with two and a half years teaching experience and attendance at Keene Summer School in 1920.

During the past year teachers' salaries in New Hampton have been raised only 22 per cent. while in many of the neighboring towns increases have been made from 25 to 50 per cent. The Board and your superintendent have tried to keep in mind in the teacher's salary schedule, three factors: the teacher's living wage, her professional wage, and her saving wage. Unless these elements are always considered we can never expect to have a supply of teachers equal to the demand.

The present teachers are:

Village, Hazel Ford; Fiske, Emma Butler; Old Institution, Helen Ford; Hannaford, Madeline Callahan; Plaisted, Stella Tuttle; Winona, Marion Woodman.

Transportation

We are still maintaining two transportation routes. Albert Walker was again secured to carry five pupils from the Warren Gordon district to the Fiske School. Mr. Holland has transported his own children to the Ashland village schools. Although it is costing the district nearly a thousand dollars a year to transport these eight pupils, they could not be educated otherwise for less than twice this amount.

School Buildings

We have made extensive repairs on the Hannaford and Old Institution buildings. The lighting has been changed in both buildings to conform with the regulations. Briefly stated the standard school building must have a ratio of window area to floor area of not less than one to five. Ceilings shall be white or light cream color and shades a light tint wherever needed. The floors must be in good condition and oiled or swept with some dust laying compound. Toilets must be decent and in sanitary conditions. Water for drinking must be provided in a properly covered receptacle with faucet or bubble. The schoolhouses should be properly cleaned at least twice each year and some effective deodorant used constantly.

At the Winona and Plaisted buildings minor improvements were made such as resetting glass and providing book closets. Now all our buildings, with the exception of the village are in fair condition.

As to the village building, your superintendent believes that it would be unwise for the district at this particular time to attempt to erect a new building.

Health

In 1917 a law was passed that all schools approved by the State Board must make "suitable provision for the care of the health and physical welfare of all pupils" and that school money may be used for promotion of the physical health and recreation of pupils and for their medical and dental examination, for the determination of mental and physical defects, for the employment of school nurses and the instruction of pupils in the principles of health and sanitation.

In New Hampton we have met for the past two years the provision of the law by having a medical

inspector. The past year Dr. Dolloff has made an examination of our pupils, but in order to carry out his recommendations a follow-up system is needed. In a number of the districts of the state a district nurse is employed to cooperate with the pupils and parents in getting the physical defects removed. Commissioner Butterfield has said, "medical inspection is a public health measure for the protection of all citizens." Then let us endeavor to get more effective results from this act. Some of the members of the Red Cross have expressed to me that possibly that association might be willing to aid the district in improving the physical condition of our pupils.

Number pupils examined	96
Number pupils absent	6
Cases of defective vision	15
Cases of defective teeth	75
Cases of enlarged tonsils	50
Cases unvaccinated	18
Cases of cardiac	1
Cases of anaemia	1
Cases of defective speech	1

School Lunches

The local Red Cross association has cooperated with the public school officials toward improving the school lunch problem. At the Fiske School this association purchased an oil stove and necessary utensils in order that the pupils might have a hot dish with the cold basket lunch brought from home. In behalf of these pupils and the teacher, I wish to thank this association for this splendid equipment.

Three other schools are serving hot soups at the noon hour although on a smaller scale. At the Winona school Miss Woodman and the pupils have bought a new oil stove with an oven attached. The pupils and the teacher are paying for this stove from the money they

can earn this year. The teacher is giving \$18 toward the required amount. Such cooperation from the pupils, teachers, and parents gives your superintendent assurance that the people of New Hampton believe in their schools. Let us have faith in the boys and girls of to-day and our town will certainly be a safe place in which to live twenty years hence.

Grange

On Columbus day the local Grange again this year offered prizes, entertainment, and a supply of the best cooked foods in the town to the pupils and teachers of New Hampton for the best exhibits from the gardens and kitchens of these young citizens. New Hampton is leading all other towns in the state in this particular phase of school work, due, I am sure, largely to the help and encouragement received from the Grange. When such organizations as the Grange, Red Cross, churches, and women's clubs of the town are backing the schools, we are bound to have more efficient education.

In conclusion: your superintendent has at all times endeavored, in solving the many problems that appear in his work, to think first of the welfare of the boys and girls of New Hampton. This is the fundamental principle upon which our problems must be solved. And the many pleasant conferences that I have had with the citizens and parents leads me to believe that the most important civic problem ever before them is the school. The school takes precedent over all other town affairs. I wish again this year to thank all for the many suggestions I have received during the past year.

Respectfully submitted,

WILLIAM H. BUKER.

District Superintendent of
Union No. 39.

School Census on September 30, 1920

Pupils under 16, boys 76, girls 53,	total 129
Pupils registered in the public schools	107
Pupils registered in other schools	20

Hannaford	Olive Hanscom	20	36	16	81	101	21	38
Plaisted	Dorothy Davis	20	36	15	87	301	18	9
Winona	Ruth Stafford	22	36	17	94	42	17	54
	Marion Woodman	16	36	14	93	5	21	30
Total		133		100		626	114	244
Average			36		88.5			
Total ending Aug. 31, '19		124		86		248	107	222
Average			31.5		86			

Although we had one of the most severe winters on record we had, as you can see from the above records, a higher percent. of attendance than the previous year and an increase of four and one half weeks of school. The number of tardy marks was far too many, although due largely to the weather conditions. The Winona school deserves commendation for its low number of tardy marks.

ROLL OF HONOR

September 1, 1919, to August 31, 1920

First term: Horace Boynton, Albert Chandler, Dorothy Chandler, Milbre Chandler, Katherine Chandler, Elwood Palm, Roland Palm, Esther Smith, Elizabeth Brown, Frederick Brown, Ellen Young, Laurence Lee, March Kelley, Frank Seaver, Raymond Smith, Leona Gilpatrick, Richard Plummer.

Second term: Albert Chandler, Dorothy Chandler, Milbre Chandler, Katherine Chandler, Elwood Palm, Roland Palm, Elizabeth Brown, Frederick Brown, Raymond Smith, Eldred Dow, Leona Gilpatrick.

Third term: Albert Chandler, Dorothy Chandler, Milbre Chandler, Katherine Chandler, Elwood Palm, Roland Palm, Esther Smith, Ellen Young, Laurence Lee, March Kelley, Eldred Dow, Leona Gilpatrick, Richard Plummer, Charles Varney, Clinton Wallace, Robert Dicey.

REPORT OF SCHOOL BOARD

Sept. 1, 1919, to Sept. 1, 1920

New Hampton, N. H., Jan. 28, 1921.

To the Citizens of New Hampton:

I wish to express to you as clearly and briefly as possible the state of the school finances of New Hampton.

Money which belongs to our school district, placed in our treasury by means of taxation, and usually the result of long hours of toil by our citizens, is surely a cause for serious consideration and careful planning for its economical expenditure by any conscientious superintendent or school board. It has been our aim to follow the new educational law as far as possible and give our boys and girls as nearly equal advantages with other towns in New Hampshire as our money from town and state will permit.

There is a question in the minds of some of our people as to the practical help of this new educational law, but New Hampton is greatly benefitted. High prices were enevitable with the World War, likewise higher taxes. If our legislature had failed to pass the bill, town expenditures would have been just as high as at the present time, and with a very small amount of state aid.

During the year ending August 31, 1920, we received from the state \$144.00 for qualified teachers, \$302.00 for high school tuition rebate, and \$2,149.78 from the equalization fund (state aid). The selectmen paid to the state \$609.20 for increased state tax on account of schools. The district paid \$298.00 per capita tax and \$125.00 for superintendent's salary, thus netting us the substantial sum of \$1,563.58 for school purposes. This year we will receive \$685.68 for high school tuition rebate, and

\$2,721.41 equalization fund. At the time of writing this report we have received the high school tuition rebate, and will receive 52 per cent of our equalization fund by February 15th. If the present legislature passes the deficit appropriation, and we have every reason to believe it will, we will receive the remaining 48 per cent of our equalization fund by the first of May.

The expenses of the school district must necessarily be high owing to the large number of high school tuition pupils, transportation and necessary repairs. Our bills for text books and supplies are large this year, but last year we bought very few text books so that the average for the two years is comparatively low.

Some of our teachers will without doubt be worth more to the district the coming year, owing to professional training received at Summer school and longer teaching experience, but with the general downward trend of prices and the very substantial sum which we will receive from the state, we feel confident we shall be able to keep within the schedule of our budget of expenditures.

To enable us to be benefitted by state aid, it is necessary for the school district to raise a tax of \$5.00 on a \$1,000.00 on the inventory of the town for school purposes. We are then required to prepare a budget of expenditures for the year, not later than Oct.1st, to be submitted to the State Board for their approval.

One of the new features this year is a new system of bookkeeping. A General Fund book is furnished for state aided districts. By this method every expenditure is classified under its proper heading. For the payment of bills, vouchers with corresponding detachable checks are used. These are also numbered and classified, corresponding with the General Fund book. By this method our school transactions are done on an efficient and thoroughly business basis.

Another new departure for New Hampton was the graduation exercises of the eighth grade. This milestone in the lives of our boys and girls should not be overlooked as it is the stepping-stone to higher and greater things in their young lives. Although the distance from several of the schools to the Grange Hall at New Hampton village, where the exercises were held, was quite long, this did not lessen the enthusiasm, and by the various means of conveyance which they found, it is evident that we are assured the cooperation of the parents, the townspeople and the Grange. This is one of the most important factors in any civic undertaking.

The meetings of the school board and superintendent are held the last Friday of every month. At these meetings school questions are discussed so that each member of the board is thoroughly informed as to the conditions in every school, and every bill presented examined and considered before any payments are made.

As required by law, we recommend the following amount of money to be raised for the support of schools from Sept. 1, 1921, to Sept. 1, 1922:

\$5.00 on \$1,000 of 1921 inventory	
High School Tuition	\$1,800.00
Per Capita Tax	300.00
Repairs	
District Officers' Salaries	125.00

Other matters pertaining to the schools of New Hampton will be found in the Superintendent's report.

Respectfully submitted,

STELLA H. POLLARD,

ANNA B. PARKER,

LESLIE B. SMITH,

Members of School Board.
